**Estimated Cost: You may calculate your Good Faith Estimate**

For therapy we can't necessarily provide an estimate of how long it takes since each individual is so different in their severity of symptoms, symptom presentation, level of motivation etc. The frequency with which clients are seen, and the duration of time in which they are seen, is dependent on client need. We are presenting the Good Faith Estimate as the cost of treatment for Psychotherapy for 12 months 1x weekly as \$16,900. You can adjust based on the information above.

*I acknowledge that I have received my Good Faith Estimate and reviewed it with my clinician. I acknowledge that I am not obligated to obtain any of the listed services from this provider.*

## Disclaimer

This Good Faith Estimate shows the costs of services that are reasonably expected for the expected services to address your mental health care needs. The estimate is based on the information known to us when the OCD & Anxiety Program did the estimate.

The Good Faith Estimate does not include any unknown or unexpected costs that may arise during treatment. You could be charged more if complications or special circumstances occur. If this happens, federal law allows you to dispute (appeal) the bill.

**If you are billed for more than this Good Faith Estimate, you have the right to dispute the bill.**

You may contact the OCD & Anxiety Program of Southern California at the contact listed above to let them know the billed charges are higher than the Good Faith Estimate. You can ask them to update the bill to match the Good Faith Estimate, ask to negotiate the bill, or ask if there is financial assistance available.

You may also start a dispute resolution process with the U.S. Department of Health and Human Services (HHS). If you choose to use the dispute resolution process, you must start the dispute process within 120 calendar days (about 4 months) of the date on the original bill.

There is a \$25 fee to use the dispute process. If the agency reviewing your dispute agrees with you, you will have to pay the price on this Good Faith Estimate. If the agency disagrees with you and agrees with the health care provider or facility, you will have to pay the higher amount.

To learn more and get a form to start the process, go to:
